To:

Dr. Waleed Bin Azhar
CEO Fatimid Blood Bank
Karachi, Pakistan

Subject: Cooperation Letter for the Blood Safe Life Project

Dear Dr. Waleed,

I hope this message finds you well. We are final-year students at FAST University, working under the supervision of Sir Abuzar Zafar and Sir Ali Fatmi on our project titled "Blood Safe Life." Our goal is to digitalize and improve the blood donation process, making it more efficient and transparent.

We believe that collaborating with **Fatimid Blood Bank** would greatly benefit both organizations and help create a usable, human-centered application. With the assistance of **Dr. Ruhul Quddus** and **Sir Talhat**, who are providing valuable guidance on the medical and blood donation helplines, we are taking the necessary steps to ensure that our application is medically sound and user-friendly.

Our goal is to develop an application that not only enhances blood donation efficiency but also ensures transparency and accessibility, addressing the challenges of blood supply and demand in Pakistan. The insights and expertise of Fatimid Blood Bank would be instrumental in achieving these goals, and we would greatly appreciate your support and collaboration in this endeavor.

We would be grateful for any guidance and feedback you can provide. Thank you for your time, and we look forward to your positive response.
